

BUZZ BRAIN EXERCISE-024

THE ULTIMATE CHALLENGE

When I was in the process of extending the energy of the numbers one thru nine, I gave myself the ultimate challenge.

CANYOU CREATE NINE EQUATIONS USING THE NUMBERS 1 THRU 9 ONLY?

I am still facing that challenge, but I am close.

CREATE 10 EQUATIONS USING THE NUMBERS 0 THRU 9 ONLY

You must use a combination of addition, subtraction, multiplication and division to create the 10 equations.

Rearrange your signs and numbers in the right places to form your equations.

	+ ÷ - x			
0		9	=	0
1		8	=	1
2		7	=	2
3		6	=	3
4		5	=	4
5		4	=	5
6		3	=	6
7		2	=	7
8		1	=	8
9		0	=	9
