

## BUZZ BRAIN EXERCISE 026

### PROVERB

Tis a lesson you should heed  
Try, try, try again  
If at first you don't succeed  
Try, try try again

Accredited to W E HICKSON

This is an exercise for the creative mind; I did not give up, I remembered this proverb I learnt in primary school, but I think there is another line unless I made it up-“You will succeed at last”.

Well, well, well I did not give up on the ultimate challenge, a good exercise for the critical thinking. Read the instructions carefully.

Create NINE Equations using the numbers ONE to NINE only.

The numbers are presented in three columns insert the math signs and numbers in the correct places to form the Equations.

PS It is mathematically possible if you completed exercise 025.

1	signs	9	=	1
2		8	=	2
3		7	=	3
4		6	=	4
5		5	=	5
6		4	=	6
7		3	=	7
8		2	=	8
9		1	=	9
