

## BUZZ BRAIN EXERCISE-035-numbers-easy

### Are You A Critical Thinker?

There is no doubt in my mind that with the evolving of the 4<sup>th</sup> industrial revolution the next generation will have to be creative and problem solvers.

Critical thinking and spirituality will be the watchwords for tomorrow's leaders.

This exercise is one of a series that offers training to enhance the ability to think critically.

There are nine numbers listed below; eight of the numbers have something in common.

One number is a stranger in the group or does not fit the bill.

What is it that the eight numbers have in common?

Which number is the stranger in the group or does not fit the bill?

Explain why it does not fit the bill.

This is just a warm up exercise, There are some comments suggesting some of the exercises are too challenging.

30—65—15—75—135—120—45—60—105
